Awards and Commendations

- Navy "E" Ribbon (2024)
- Navy and Marine Corps Commendation Medal (2024)
- Navy and Marine Corps Achievement Medal (2023)

Key Projects & Programming Experience

- **Drone Delivery Analytics API:** Developed a RESTful API endpoint using Python/Flask to provide data resources and analytical insights related to commercial drone delivery efficiency. This project demonstrates skills in API design, data management, and back-end development. (GitHub: <https://github.com/pctrainor/Group-4-ISYS-57103>)
- **Programming Proficiency:** Demonstrated expertise in multiple programming languages including Java, Python, JavaScript, and SQL, enabling full-stack development capabilities and data analysis tasks.

Additional Notes

- **Adaptable and Results-Oriented:** Proven ability to thrive in fast-paced, high-pressure environments.
- **Strong Communicator:** Excellent written and verbal communication skills, with experience briefing senior leadership.
- **Dedicated Team Player:** Committed to fostering a collaborative and supportive work environment.
